The table below lists the details of the locations where trees will be planted in currently vacant sites along Clunies Ross Crescent, Mulgrave. For further location details, please refer to the street map outlining all removals, replacements and infill planting.

No.	Street Address	Assessment Outcome	Follow Up Action
1	2 Clunies Ross Crescent	Vacant Site	New tree to be planted
2	3 Clunies Ross Crescent	Vacant Site	New tree to be planted
3	4 Clunies Ross Crescent	Vacant Site	New tree to be planted
4	5 Clunies Ross Crescent	Vacant Site	New tree to be planted
5	6 Clunies Ross Crescent	Vacant Site	New tree to be planted
6	8 Clunies Ross Crescent	Vacant Site	New tree to be planted
7	9 Clunies Ross Crescent	Vacant Site	New tree to be planted
8	15 Clunies Ross Crescent	Vacant Site	New tree to be planted
9	18 Clunies Ross Crescent	Vacant Site	New tree to be planted
10	20 Clunies Ross Crescent	Vacant Site	New tree to be planted
11	24 Clunies Ross Crescent	Vacant Site	New tree to be planted
12	26 Clunies Ross Crescent	Vacant Site	New tree to be planted
13	27 Clunies Ross Crescent	Vacant Site	New tree to be planted
14	30 Clunies Ross Crescent	Vacant Site	New tree to be planted
15	35 Clunies Ross Crescent	Vacant Site	New tree to be planted
16	37 Clunies Ross Crescent	Vacant Site	New tree to be planted

Street Overview

The map below details the removals, replacements and infill plantings. All other trees have been assessed as having more than two years' useful life and will be retained.

Street Overview Legend

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement

Proposed Tree Species Options

Council’s Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

Option 1 – Single species (both sides of the road)

<i>Tristaniopsis laurina</i> ‘Luscious’ (Luscious Kanooka)	
	<p>An Australian native. Leaves are dark green, shiny and large. New growth starts in a distinctive copper colour and further interest appears over time with the branches developing deep purple-coloured bark which peels back to reveal a smooth, cream trunk. Flowers are yellow and sweetly perfumed, appearing in clusters through summer.</p>
	<p>Mature Size</p> <p>Height x Width (m): 8m x 4 m</p> <p>Form: Oval</p>
	

Option 2 – Single species (both sides of the road)

<i>Callistemon viminalis</i> (Weeping Bottle Brush)	
	<p>This is a pretty bird-attracting tree with a heavy crown due to the profusion of brilliant red flowers in spring and summer. It is the weight of these flowers that gives it a pendulous habit.</p>
	<p>Mature Size</p> <p>Height x Width (m): 6m-8m x 6m-8m</p> <p>Form: Round</p>

Option 3 – Combination of species

Power line side of road

<i>Pyrus fauriei</i> 'Westwood' Korean Sun (Korean Sun Pear)	
	<p>This is a compact ornamental pear tree with a dense growth habit. It has a glossy green foliage that changes to bright tones of red and orange in autumn. Flowering seems to occur quite early in spring.</p>
	<p>Mature Size</p> <p>Height x Width (m): 4m x 6m</p> <p>Form: Oval</p>

Non-power line side of road

<i>Nyssa sylvatica</i> (Black Tupelo)	
	<p>A medium-sized tree, the Black Tupelo has dark green leaves in summer becoming an amazing glowing orange, red and yellow colour in autumn. A slow growing variety with highly ornamental bark and great autumn foliage.</p>
	<p>Mature Size</p> <p>Height x Width (m): 8m-12m x 6m-10m</p> <p>Form: Pyramid</p>
