

Tree Removals

The table below lists the details of the trees to be removed, including tree location, tree species and condition assessment. For further location details, please refer to the street map outlining all removals, replacements and infill planting, or alternatively each tree has had a reference tag attached, these tags will correspond to the reference number below for on-site identification.

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*ULE <2 Years)	Tree Image
15	42 Dunscombe Avenue	Tree to be removed	Replacement tree to be planted	Callistemon salignus	85% vigour (health)	

Infill Planting Location

The table below lists the details of the locations where trees will be planted in currently vacant sites along Dunscombe Drive, Glen Waverley. For further location details, please refer to the street map outlining all removals, replacements and infill planting.

No.	Street Address	Assessment Outcome	Follow Up Action
1	13 Dunscombe Avenue	Vacant Site	New tree to be planted
2	15 Dunscombe Avenue	Vacant Site	New tree to be planted

Street Overview

The map below details the removals, replacements and infill plantings. All other trees have been assessed as having more than 2 years useful life and will be retained.

Street Overview Legend

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement

Proposed Tree Species Options

Council's Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

Option 1 – Single species (both sides of the road)

Tristaniopsis laurina (Luscious Kanooka)

An Australian native. Leaves are dark green, shiny and large. New growth starts in a distinctive copper colour and further interest appears over time with the branches developing deep purple coloured bark which peels back to reveal a smooth, cream trunk. Flowers are yellow and sweetly perfumed, appearing in clusters through summer.

Mature Size

Height x Width (m): 8 x 4 m

Form: Oval

Option 2 – Single species (both sides of the road)

Corymbia eximia 'Nana' (Dwarf Yellow Bloodwood)

The foliage is broad with a strong green colour and may turn a paler yellow/green in the colder months. In spring the tree puts on an eye-catching display covering itself in creamy yellow flowers, attracting nectar-loving birds.

Mature Size

Height x Width (m): 6 – 8 x 4 – 6 m

Form: Round

Option 3 – Single species (both sides of the road)

***Brachychiton populneus x acerifolius* 'Bella Pink' (Bella Pink Hybrid Brachychiton)**

This is a small to medium-sized shade native tree offering glossy green foliage and pretty clusters of salmon pink, bell-shaped flowers in summer. The flowers attract birds.

Mature Size

Height x Width (m): 8 x 4 m

Form: Broad domed
