

Tree Removals

The table below lists the details of the trees to be removed, including tree location, tree species and condition assessment. For further location details, please refer to the street map outlining all removals, replacements and infill planting. Alternatively, each tree has had a reference tag attached and these tags will correspond to the reference number below for on-site identification.

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*Useful Life Expectancy <2 Years)	Tree Image
3	26 Haverbrack Drive	Tree to be removed	No Replacement tree to be planted	<i>Callistemon salignus</i>	Poor vigour, some dieback through crown.	
4	51 Haverbrack Drive	Tree to be removed	Replacement tree to be planted	<i>Prunus cerasifera Nigra</i>	Poor vigour and foliage density.	
5	97 Haverbrack Drive	Tree to be removed	No Replacement tree to be planted	<i>Eriobotrya japonica</i>	Reduced vigour. Dieback and decay present.	

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*Useful Life Expectancy <2 Years)	Tree Image
6	103 Haverbrack Drive	Tree to be removed	Replacement tree to be planted	<i>Prunus cerasifera Nigra</i>	In senescence and general decline	

Infill Planting Locations

The table below lists the details of the locations where trees will be planted in currently vacant sites along Haverbrack Drive, Mulgrave. For further location details, please refer to the street map outlining all removals, replacements and infill planting.

No.	Street Address	Assessment Outcome	Follow Up Action
1	3 Haverbrack Drive	Vacant Site	New tree to be planted
2	16 Haverbrack Drive	Vacant Site	New tree to be planted
3	52 Haverbrack Drive	Vacant Site	New tree to be planted
4	53 Haverbrack Drive	Vacant Site	New tree to be planted
5	65 Haverbrack Drive	Vacant Site	New tree to be planted
6	74 Haverbrack Drive	Vacant Site	New tree to be planted
7	79 Holmbury Boulevard	Vacant Site	New tree to be planted
8	83 Haverbrack Drive	Vacant Site	New tree to be planted

11	98 Haverbrack Drive	Vacant Site	New tree to be planted
12	99 Haverbrack Drive	Vacant Site	New tree to be planted
13	99 Haverbrack Drive	Vacant Site	New tree to be planted
14	101 Haverbrack Drive	Vacant Site	New tree to be planted
15	120A Haverbrack Drive	Vacant Site	New tree to be planted
16	120B Haverbrack Drive	Vacant Site	New tree to be planted

17	122 Haverbrack Drive	Vacant Site	New tree to be planted
18	122 Haverbrack Drive	Vacant Site	New tree to be planted

Street Overview

The map below details the removals, replacements and infill plantings. All other trees have been assessed as having more than two years' useful life and will be retained.

Street Overview Legend

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement

Proposed Tree Species Options

Council's Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

Option 1 – Single species (both sides of the road)

<i>Lophostemon confertus</i> (Queensland Brush Box)	
	<p>This is a fast-growing tree. Dome-like in shape, it develops a very dense foliage cover of dark green, leathery leaves providing good shade for the summer months. Summer also brings clusters of small white flowers whose stamens give them a decorative fluffy appearance.</p>
	<p>Mature Size</p> <p>Height x Width (m): 10m x 15m</p> <p>Form: Oval</p>

Option 2 – Combination of species (both sides of the road)

<i>Tristaniopsis laurina</i> 'Luscious' (Luscious Kanooka)	
	<p>An Australian native. Leaves are dark green, shiny and large. New growth starts in a distinctive copper colour and further interest appears over time with the branches developing deep purple coloured bark which peels back to reveal a smooth, cream trunk. Flowers are yellow and sweetly perfumed, appearing in clusters through summer.</p>
 	<p>Mature Size</p> <p>Height x Width (m): 8m x 4m</p> <p>Form: Oval</p>

<i>Lophostemon confertus</i> (Queensland Brush Box)	
	<p>This is a fast-growing tree. Dome-like in shape, it develops a very dense foliage cover of dark green, leathery leaves providing good shade for the summer months. Summer also brings clusters of small white flowers whose stamens give them a decorative fluffy appearance.</p>
	<p>Mature Size</p> <p>Height x Width (m): 10m x 15m</p> <p>Form: Oval</p>

Option 3 – Single species (both sides of the road)

<i>Brachychiton populneus x acerifolius 'Jerilderie Red'</i>	
	<p>This is an attractive densely canopied tree that grows to approximately 8m tall and 7m wide. It has a bloated trunk and large lobed leaves. During the summer months, the tree is densely packed with stunning powdery-red flowers that are shaped like small bells.</p>
	<p>Mature Size</p> <p>Height x Width (m): 8m x 7m</p> <p>Form: Broad domed</p>
