

Tree Removals

The table below lists the details of the trees to be removed, including tree location, tree species and condition assessment. For further location details, please refer to the street map outlining all removals, replacements and infill planting. Alternatively, each tree has had a reference tag attached and these tags will correspond to the reference number below for on-site identification.

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*Useful Life Expectancy <2 Years)	Tree Image
13	2 William Street	Tree to be removed	Replacement tree to be planted	<i>Prunus cerasifera Nigra</i>	Useful Life Expectancy <2 Years	
14	8 William Street	Tree to be removed	Replacement tree to be planted	<i>Syzygium smithii</i>	Useful Life Expectancy <2 Years	
15	20 William Street	Tree to be removed	Replacement tree to be planted	<i>Syzygium smithii</i>	Useful Life Expectancy <2 Years	

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*Useful Life Expectancy <2 Years)	Tree Image
16	24 William Street	Tree to be removed	Replacement tree to be planted	<i>Syzygium smithii</i>	Useful Life Expectancy <2 Years	
17	36 William Street	Tree to be removed	Replacement tree to be planted	<i>Syzygium smithii</i>	Useful Life Expectancy <2 Years	
18	2/114 Burlington Street (In William Street)	Tree to be removed	Replacement tree to be planted	<i>Syzygium smithii</i>	Notable cambium dieback	

Infill Planting Locations

The table below lists the details of the locations where trees will be planted in currently vacant sites along William Street, Oakleigh. For further location details, please refer to the street map outlining all removals, replacements and infill planting.

No.	Street Address	Assessment Outcome	Follow Up Action

2	40 William Street	Vacant Site	New tree to be planted
3	44 William Street	Vacant Site	New tree to be planted
4	45 William Street	Vacant Site	New tree to be planted
5	49 William Street	Vacant Site	New tree to be planted

Street Overview

The map below details the removals, replacements and infill plantings. All other trees have been assessed as having more than two years' useful life and will be retained.

Street Overview Legend

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement

Proposed Tree Species Options

Council’s Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

Option 1 – Combination of species (both sides of the road)

<i>Callistemon viminalis</i> (Weeping Bottle Brush)	
	<p>This is a pretty bird-attracting tree with a heavy crown due to the profusion of brilliant red flowers in spring and summer. It is the weight of these flowers that gives it a pendulous habit.</p> <p>Mature Size</p> <p>Height x Width (m): 6-8m x 6-8m</p> <p>Form: Round</p>

<i>Ulmus parvifolia</i> 'Todd' (Todd Chinese Elm)	
	<p>This semi-deciduous tree has a lovely pendula habit with bright green serrated leaves. Its bark is smooth and flaky in various shades including grey, rust brown and cream. In autumn, its foliage turns various shades of yellow before falling.</p> <p>Mature Size</p> <p>Height x Width (m): 10-12 m x 6-8 m</p> <p>Form: Round</p>

Option 2 – Combination of species planted in an alternating pattern on both sides of the road

<i>Koelreuteria paniculata</i> (Golden Rain Tree)	
	<p>This species is an elegant small tree. It has serrated green, pinnate leaves and branches, which droop at the ends creating a slight weeping effect. The foliage turns bronze to gold in autumn. In summer, chains of bright yellow flowers are produced, followed by papery lantern-like seed pods which hang from the tree in large clusters.</p>
<p>Mature Size</p> <p>Height x Width (m): 7m-10m x 10m</p> <p>Form: Round</p>	

<i>Corymbia eximia</i> 'Nana' (Dwarf Yellow Bloodwood)	
	<p>The foliage is broad with a strong green colour and may turn a paler yellow/green in the colder months. In spring the tree puts on an eye-catching display covering itself in creamy yellow flowers, attracting nectar-loving birds.</p>
<p>Mature Size</p> <p>Height x Width (m): 6-8m x 4-6m</p> <p>Form: Round</p>	

Option 3 – Single species (both sides of the road)

<i>Cupaniopsis anacardioides</i> (Tuckeroo)	
	<p>The Tuckeroo has attractive glossy green large leaves, smooth grey bark, and a spreading crown shape, making it a good shade and street tree. It has green-yellow flowers in spring followed by decorative orange-yellow seed pods in summer.</p>
	<p>Mature Size</p> <p>Height x Width (m): 8-10m x 6-8m</p> <p>Form: Round</p>
