

Tree Removals

The table below lists the details of the trees to be removed, including tree location, tree species and condition assessment. For further location details, please refer to the street map outlining all removals, replacements and infill planting. Alternatively, each tree has had a reference tag attached and these tags will correspond to the reference number below for on-site identification.

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*ULE <2 Years)	Tree Image
85	28 Fernhill Street	Tree to be removed	Replacement tree to be planted	<i>Prunus sp.</i>	Tree in senescence. Poor vigour.	
86	39 Fernhill Street	Tree to be removed	Replacement tree to be planted	<i>Prunus sp.</i>	Multi stemmed. Would not achieve appropriate street tree form.	
87	11 Barbara Avenue	Tree to be removed	Replacement tree to be planted	<i>Prunus cerasifera Nigra</i>	Significant decay in trunk and one of two leaders.	

Infill Planting Location

The table below lists the details of the locations where trees will be planted in currently vacant sites along Fernhill Street/Barbara Avenue, Glen Waverley. For further location details, please refer to the street map outlining all removals, replacements and infill planting.

No.	Street Address	Assessment Outcome	Follow Up Action
1	3 Fernhill Street	Vacant Site	New tree to be planted
2	8 Fernhill Street (In Barbara Avenue)	Vacant Site	New tree to be planted
3	11 Fernhill Street	Vacant Site	New tree to be planted
4	19 Fernhill Street	Vacant Site	New tree to be planted
5	23 Fernhill Street	Vacant Site	New tree to be planted
6	27 Fernhill Street	Vacant Site	New tree to be planted
7	32 Fernhill Street	Vacant Site	New tree to be planted
8	38 Fernhill Street	Vacant Site	New tree to be planted
9	40 Fernhill Street	Vacant Site	New tree to be planted
10	8 Barbara Avenue	Vacant Site	New tree to be planted

Street Overview

The map below details the removals, replacements and infill plantings. All other trees have been assessed as having more than two years' useful life and will be retained.

Street Overview Legend

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement

Proposed Tree Species Options

Council’s Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

Option 1 – Combination of species

Powerline side of road

<i>Tristaniopsis laurina (Luscious Kanooka)</i>	
	<p>An Australian native. Leaves are dark green, shiny and large. New growth starts in a distinctive copper colour and further interest appears over time with the branches developing deep purple coloured bark which peels back to reveal a smooth, cream trunk. Flowers are yellow and sweetly perfumed, appearing in clusters through summer.</p> <p>Mature Size</p> <p>Height x Width (m): 8m x 4 m</p> <p>Form: Oval</p>

Non-powerline side of road

<i>Callistemon viminalis (Weeping Bottle Brush)</i>	
	<p>This is a pretty bird-attracting tree with a heavy crown due to the profusion of brilliant red flowers in spring and summer. It is the weight of these flowers that gives it a pendulous habit.</p> <p>Mature Size</p> <p>Height x Width (m): 6-8m x 6-8m</p> <p>Form: Round</p>

Option 2 – Combination of species

Powerline side of road

<i>Eucalyptus mannifera</i> 'little spotty' (Little Spotty)	
	<p>'Little spotty' is a small, slender, very hardy, evergreen tree. The leaves are fine and grey-green in colour and the bark is creamy white with cream or red patches. It has lovely masses of cream coloured flowers from winter to summer, which is great for attracting nectar-feeding birds.</p>
Mature Size	
Height x Width (m):	5-7m x 6m
Form:	Round

Non-powerline side of road

<i>Lophostemon confertus</i> (Queensland Brush Box)	
	<p>This is a fast growing tree. Dome-like in shape, it develops a very dense foliage cover of dark green, leathery leaves providing good shade for the summer months. Summer also brings clusters of small white flowers whose stamens give them a decorative fluffy appearance.</p>
Mature Size	
Height x Width (m):	10m x 15 m
Form:	Oval

Option 3 – Single species (both sides of the road)

Acer platanoides 'Crimson Sentry' (Crimson Sentry Norway Maple)

This is a flashy crimson foliated maple with dense upright branching. It has a compact growth habit with its large crimson leaves in summer turning to gold and orange in autumn. Adds great colour contrast foliage. A small tree with greyish-black bark that is lightly textured.

Mature Size

Height x Width (m): 7m x 4 m

Form: Upright
