

Proposed Species Options

Option 1 – Single species (both sides of the road)

Koelreuteria paniculata (Golden Rain Tree)

This species is an elegant small tree. It has serrated green pinnate leaves and branches, which droop at the ends creating a slight weeping effect. The foliage turns bronze to gold in autumn. In summer, chains of bright yellow flowers are produced, followed by papery lantern-like seed pods, which hang from the tree in large clusters.

Mature Size

Height x Width (m): 7 – 10 x 10 m

Form: Round

Option 2 – Single species (both sides of the road)

Hymenosporum flavum (Native Frangipani)

Commonly known as the native Frangipani, although not related to the exotic form, this tree bears highly fragrant flower clusters that start out cream and turn to yellow. Its flowers are great for attracting birds and native bees. We have found that in southern areas of Australia it performs best planted in the ground rather than in pots.

Mature Size

Height x Width (m): 8 x 3 m

Form: Oval

Option 3 – Single species (both sides of the road)

Acer campestre 'Elsrijk' (Hedge Maple)

A small tree with a dense round canopy and a somewhat corky bark. Small leaves with rounded lobes, dark green in summer, which turn a beautiful clear yellow in the autumn. Green inconspicuous flowers from September to October. Paired samaras spread throughout the tree and hang in clusters well into winter.

Mature Size

Height x Width (m): 7 x 3 m

Form: Oval
