

## Tree Removals

The table below lists the details of the trees to be removed, including tree location, tree species and condition assessment. For further location details, please refer to the street map outlining all removals, replacements and infill planting. Alternatively, each tree has had a reference tag attached and these tags will correspond to the reference number below for on-site identification.

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*ULE <2 Years)	Tree Image
43	29 Le Gallienne Crescent	Tree to be removed	Replacement tree to be planted	<i>Hibiscus sp.</i>	ULE <2 Years	
44	24 Le Gallienne Crescent	Tree to be removed	Replacement tree to be planted	<i>Prunus sp.</i>	Decay and >25 of foliage is epicormic	
4	19 Le Gallienne Crescent	Tree to be removed	Replacement tree to be planted	<i>Buckinghamia celsissima</i>	Damage to 80% of lower trunk	

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*ULE <2 Years)	Tree Image
46	25 Le Gallienne Crescent	Tree to be removed	Replacement tree to be planted	<i>Buckinghamia celsissima</i>	Dead	

### Infill Planting Location

The table below lists the details of the locations where trees will be planted in currently vacant sites along Le Gallienne Crescent, Mulgrave. For further location details, please refer to the street map outlining all removals, replacements and infill planting.

No.	Street Address	Assessment Outcome	Follow Up Action
1	7 Le Gallienne Crescent	Vacant Site	New tree to be planted
2	9 Le Gallienne Crescent	Vacant Site	New tree to be planted
3	9 Le Gallienne Crescent	Vacant Site	New tree to be planted
4	11 Le Gallienne Crescent	Vacant Site	New tree to be planted
5	9 Murdoch Avenue	Vacant Site	New tree to be planted
6	22 Le Gallienne Crescent	Vacant Site	New tree to be planted
7	28 Le Gallienne Crescent	Vacant Site	New tree to be planted
8	29 Le Gallienne Crescent	Vacant Site	New tree to be planted
9	14 Le Gallienne Crescent	Vacant Site	New tree to be planted

10	4 Le Gallienne Crescent	Vacant Site	New tree to be planted
11	4 Le Gallienne Crescent	Vacant Site	New tree to be planted
12	27 Le Gallienne Crescent	Vacant Site	New tree to be planted
13	3 Grainger Court	Vacant Site	New tree to be planted
14	1 Le Gallienne Crescent	Vacant Site	New tree to be planted

# Street Overview

The map below details the removals, replacements and infill plantings. All other trees have been assessed as having more than 2 years useful life and will be retained.

## Street Overview Legend

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement

## Proposed Tree Species Options

Council's Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

### Option 1 – Single species (both sides of the road)

#### *Koelreuteria paniculata* (Golden Rain Tree)

This species is an elegant small tree. It has serrated green, pinnate leaves and branches, which droop at the ends creating a slight weeping effect. The foliage turns bronze to gold in autumn. In summer, chains of bright yellow flowers are produced, followed by papery lantern-like seed pods which hang from the tree in large clusters.

#### **Mature Size**

**Height x Width (m):** 7 – 10 x 10 m

**Form:** Round

### Option 2 – Single species (both sides of the road)

#### *Hymenosporum flavum* (Native Frangipani)

Commonly known as the native Frangipani, although not related to the exotic form, this tree bears highly fragrant flower clusters that start out cream and turn to yellow. Its flowers are great for attracting birds and native bees. We have found that in southern areas of Australia it performs best planted in the ground rather than in pots.

#### **Mature Size**

**Height x Width (m):** 8 x 3 m

**Form:** Oval

### Option 3 – Single species (both sides of the road)

#### *Acer campestre* (Elsrijk Maple)

A small tree with a dense round canopy, and a somewhat corky bark. Small leaves with rounded lobes, dark green in summer, which turn a beautiful clear yellow in the autumn. Green inconspicuous flowers from September to October. Paired samaras spread throughout the tree and hang in clusters well into winter.

#### **Mature Size**

**Height x Width (m):** 7 x 3 m

**Form:** Oval
