

LEGEND

Buildings and Recreation Infrastructure

- 01 New or expanded clubroom for the Waverly City Archers (200m²)
 - 02 Potential future indoor archery and fencing centre (600m²)
- Landscape and Amenity**
- 03 Potential picnic locations including shelters
 - 04 Potential children's exploration/activity zone
 - 05 Potential terraced spectator viewing area and access to sportsfield. Shade structure over
 - 06 Potential ephemeral wetland walk including boardwalk viewing platform/rest area.
 - 07 Potential new location of cricket practice nets and soccer goal storage in summer

- Existing flood lights
- ELP Existing flood light to be relocated and upgraded to training standard (minimum 50 lux)
- ELP(R) Install new flood light to training standard (minimum 50 lux)
- FL

Movement Network

Roads:

- 08 Potential re-alignment of existing roadway/car park to accommodate additional spaces (up to 18 new)
- 09 Potential additional parking for Archery Club
- 10 Form parallel parking to Southern edge of the reserve access road and install bollards along the northern edge
- 11 Potential location for splitter island to separate traffic around corner

Pedestrian and Cyclists:

- 12 Potential minor entry points to reserve
- 13 New path provides alternative access to pavilion areas
- 14 Potential raised crossing to slow traffic
- 15 Potential realignment of circuit path required around new building and car park
- 16 Potential stair access with bike ramps to site
- 17 Potential stair access from realigned Melbourne Water embankment to sports fields
- 18 New DDA compliant access path to archery range

Melbourne Water and Drainage Works

- ▭ Extent of embankment rectification works (+300mm increase to existing finished surface level)
- Existing drainage infrastructure to be updated
- Replace swale with underground drainage to increase sports playing area
- Existing trees to be removed as part of Melbourne Water works

- ▭ Extent of land subject to inundation

Sport and Archery Arrangement

- 21 Relocation of archery range 10m to the East and removal of existing mound to make room for additional archery targets (16-17)
- 22 Install demarcation low fence for archery range
- 23 Minor realignment of the three soccer fields (3 x potential 100m x 68m soccer pitches with 3m run off to all edges)
- 24 Relocate concrete centre wicket to achieve 2 x potential 60m radius cricket ovals.
