

5.3 COUNCILLORS' ATTENDANCE AT CONFERENCES - POLICY ON REPORTING BACK TO COUNCIL

Responsible Officer: Jarrod Doake, Chief Operating Officer

RECOMMENDATION

That The Councillors' Attendance At Conferences - Policy On Reporting Back To Council be adopted.

INTRODUCTION

This report proposes the review of the policy on Councillors' attendances at conferences, at the expense of the Council.

BACKGROUND

The Council has a long-standing policy that requires Councillors who attend conferences at the expense of Council to report back to Council following their attendance.

Councillors have the opportunity as part of their Council duties to attend conferences to further their knowledge and understanding of issues affecting local government and the City of Monash.

Attendance and participation at conferences can provide a valuable insight into best practice in the efficient, effective and equitable delivery of services to residents, which can then be applied to the City of Monash's service delivery program. It is important that the knowledge that is gained be shared with fellow Councillors and others, where appropriate.

PURPOSE/DISCUSSION

The policy requires Councillors to provide at least a detailed report which includes the following:

- An outline of Conference proceedings and the reason for attendance.
- A discussion on how the information gained at the conference will assist Council in furthering its objectives and strategies contained in the Corporate Plan.
- A discussion on issues raised at the Conference that could directly affect or benefit the City of Monash.
- The Councillor's plans for applying the knowledge gained for the betterment of Council policy and/or practice.
- Details of where further information can be obtained including copies of Conference proceedings and other papers.

The policy was last reviewed by Council at its July 2018 meeting.

As it appears to be working appropriately, it is recommended that the policy be adopted without amendment.
